# Mozaik ™

It's the way software should be.
Fast. Simple. No hassles. No games.
Buy it, download it, use it!
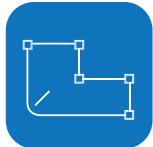

# About Mozaik

You shouldn't have to part with your hard-earned business profit to purchase cabinet software. Mozaik gives you access to the best software for designing and manufacturing cabinets without breaking the bank.

# Mozaik Features

### Shape Cabinets

Mozaik™ gives you complete control over every part. Use the Product and Part Editors to shape cabinets or individual cabinet parts like shelves or partitions. This allows you to quickly and parametrically build various shaped cabinets.

### CNC MDF Doors

Mozaik™ is also supplied with several "ready-to-run" MDF Doors. You can also design your own MDF Doors, create tool paths, and generate Sketchup™ Models for rendering.
The possibilities are endless.

### Optimization

The Mozaik™ Optimization software has several different algorithms built-in to generate the best possible nesting solution for your parts. Mozaik™ exclusive Pick-A- Pattern™ technology allows you to choose each pattern as they are created. Easily move parts and modify the nests.

### Cabinet Sectioning

Mozaik™ gives you the tools you need to design custom joinery. Section the face and interior of a product by simply splitting the opening and selecting the parametric item to assign to the opening. Easily add shelves, partitions, inner drawers, hanging rails and more.

### Shop Drawings

Use the built-in MultiPrint to size and arrange your printouts in any combination for factory use or to present to your customers. Add annotations, dimensions, text, renderings from Mozaik™ Render, Sketchup™, or any other JPG files like your company logo.

### Machine Both Sides

Parts with operations on both sides are a breeze with Mozaik™! You can easily create programs to machine the backside of parts individually or you can quickly generate GCode to flip the entire sheet! Mozaik will even add a squaring cut to make sure the parts are referenced properly against the pins when the sheet is flipped.

# Levels

## Mozaik Manufacturing™

### 95 USD
### / Month

**Floor Plans, Elevations, 3D Views, Cutting Lists, Reports, Quoting/Pricing & Shop Drawings**

Mozaik Manufacturing™ gives you the tools you need to design all your jobs, from custom cabinetry to architectural joinery. Seamlessly produce floor plans, elevations, 3D views and shop drawings.

Generate door lists, drawer lists, cutting lists, material requirements, hardware requirements, part and cabinet labels, and other essential manufacturing details for your jobs.

This product is recommended for "non-cnc" cabinet makers, kitchen, joinery, vanity and wardrobe designers

## Manufacturing™ Plus Optimizer™

### 125 USD
### / Month

**All Mozaik Manufacturing™ Features + Optimized Cutting Patterns for a Panel Saw**

Mozaik Manufacturing™ Plus Optimizer™ includes all the same features as Mozaik Manufacturing™ and adds on the Mozaik Optimizer™

Generate cutting patterns for Panel Saws, so you know exactly how many sheets of material you need and the optimum way to cut the parts.

This product is recommended for "non-cnc cabinet makers who manufacture using a panel saw.

## Mozaik CNC Complete™

### 150 USD
### / Month

**All Mozaik Manufacturing™ Plus Optimizer™ Features + Operations, CNC Tooling & G-Code Creation**

From design to cut lists to nesting to machine ready G-Code, the Award Winning Mozaik CNC Complete™ has everything you need to run your CNC Router.

Includes all the features of Mozaik Manufacturing™ Plus Optimizer™

Mozaik CNC Complete™ also includes true shape nesting, GCode creation, post processor (for most popular CNC Routers), CNC MDF Doors, part operations for screws, cams, mortise and tenons and more!

# Additional Options

## Paperless Shop Bundle™
### USD 50 / month
The power and simplicity of these tablet apps will dramatically improve your factories communication, productivity, and accuracy! Using the MPS Apps™ will completely change the way you run your factory.
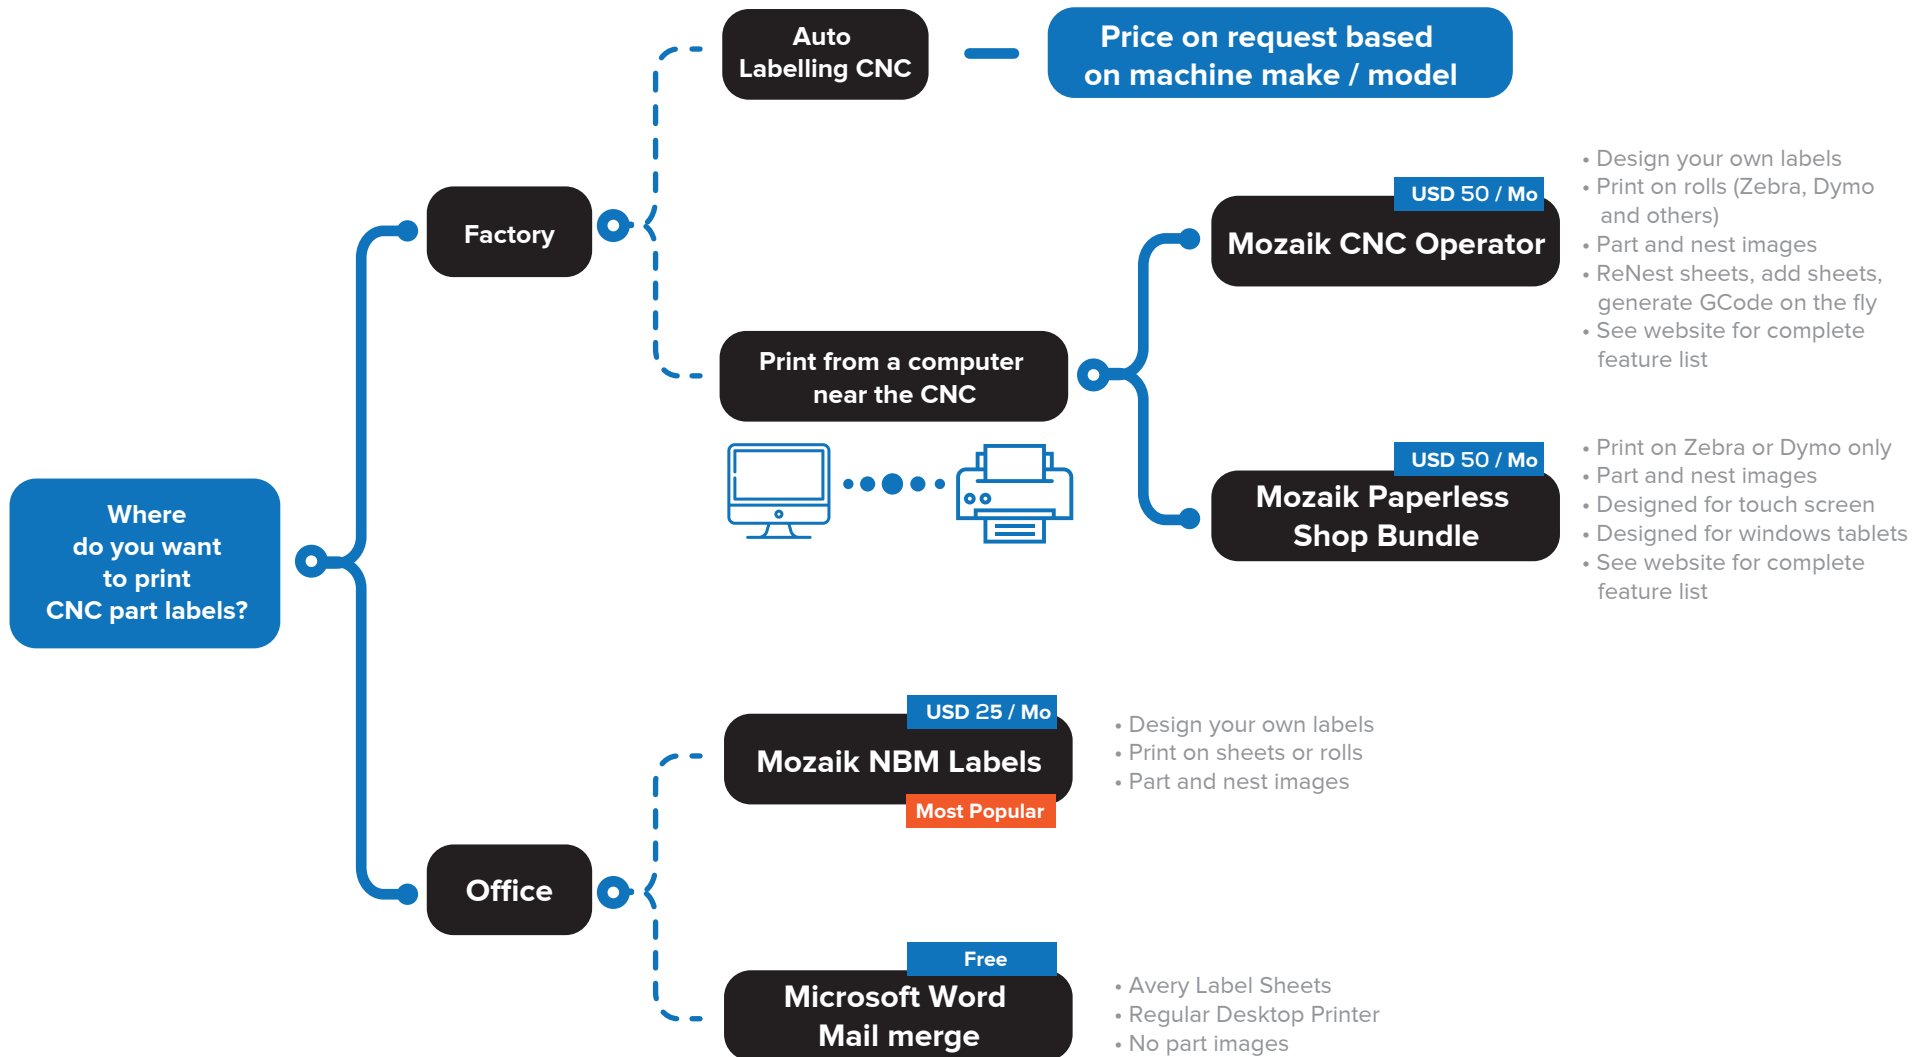

## Mozaik™ Additional Seats
### USD 50 / month
Mozaik is licensed per device. Each Additional Seat purchased will add USD 50 / month to the subscription. If you want to use Mozaik on a computer at work and a computer at home you will need to add one additional seat.

## Mozaik™ NBM Labels
### USD 25 / month
The Mozaik Nested Based Manufacturing Label runs inside the Mozaik Optimizer allowing you to print your part labels on demand.  Whether you cut your parts at a panel saw or on a flat table CNC Router, NBM Labels will save you time and money!  Simply click on the sheet, click on the part, print the label.

# Part Labeling Options

**Where do you want to print CNC part labels?**

## Factory

**Auto Labelling CNC** — **Price on request based on machine make / model**

**Print from a computer near the CNC**

**Mozaik CNC Operator** — USD 50 / Mo
- Design your own labels
- Print on rolls (Zebra, Dymo and others)
- Part and nest images
- ReNest sheets, add sheets, generate GCode on the fly
- See website for complete feature list

**Mozaik Paperless Shop Bundle** — USD 50 / Mo
- Print on Zebra or Dymo only
- Part and nest images
- Designed for touch screen
- Designed for windows tablets
- See website for complete feature list

## Office

**Mozaik NBM Labels** — USD 25 / Mo — Most Popular
- Design your own labels
- Print on sheets or rolls
- Part and nest images

**Microsoft Word Mail merge** — Free
- Avery Label Sheets
- Regular Desktop Printer
- No part images

# Training, Service, Support and Updates
